**NOTIFICATION TYPE:**

Customers must notify ON Semiconductor (<quality@onsemi.com>) in writing within 90 days of receipt of this notification if they consider the discontinued product to be "Sole Source." ON Semiconductor and the customer may negotiate an appropriate End-of-Life.

**DESCRIPTION AND PURPOSE:**

ON Semiconductor has been informed by Nihon Inter Electronics Corp, a subcontractor vendor that they no longer offer subcontractor services to ON Semiconductor for products listed in this notification.

They will close down the production line of Axial type products in their factory because the production facility and equipment have become older and this situation makes it difficult to maintain the production line.

The discontinued support is related to a change of focus of the business of Nihon Inter Electronics Corp, and is not an event within ON Semiconductor control.

Despite several discussions between the management team of ON Semiconductor and Nihon Inter Electronics Corp, both parties have made this final conclusion.

Although we realize the importance of the long term availability of our products, we see currently no other option than to offer a last time buy (LTB) opportunity for the products.

We have also provided a list of replacement devices, where available, to aid in this process.

We apologize for any inconvenience this has caused you and appreciate your understanding and cooperation to minimize the impact of this product discontinuation on your company.

ON Semiconductor values our business relationship and looks forward to your continued interest in our products in the future.
