Important Notice Product Phase-out M920

November 15, 2018

With a focus on innovative ideas and an eye towards future markets, SCHURTER continually strives to improve products throughout the various part series we offer. At the same time, some of the products SCHURTER offers have experienced a decline in demand and it is no longer cost effective to produce or maintain approvals for these parts. For these reasons, SCHURTER periodically looks to adjust our product range to maximize value for our partners and customers.

Attached is a complete list of all part numbers involved in this phase out. Many of these items have been listed on previous phase out notices but we have included them here in order to again provide our distribution partners with the opportunity to update their records. Last time buy dates are noted but please be advised that due to the limited availability of raw materials, last time buys will be supported on a first come, first serve basis and will be subject to MANUFACTURER'S PRE APPROVAL Possible replacement parts are referenced where applicable. For those distributors who have reported POS activity within the past three years on items included in this phase out, a list of customers, part numbers, and quantities purchased is also attached.

On the SCHURTER website, the data sheets of the phased out parts are marked with a phase-out watermark as shown in Figure 1. Where applicable, customers are informed of the recommended replacement (Figure 2).
